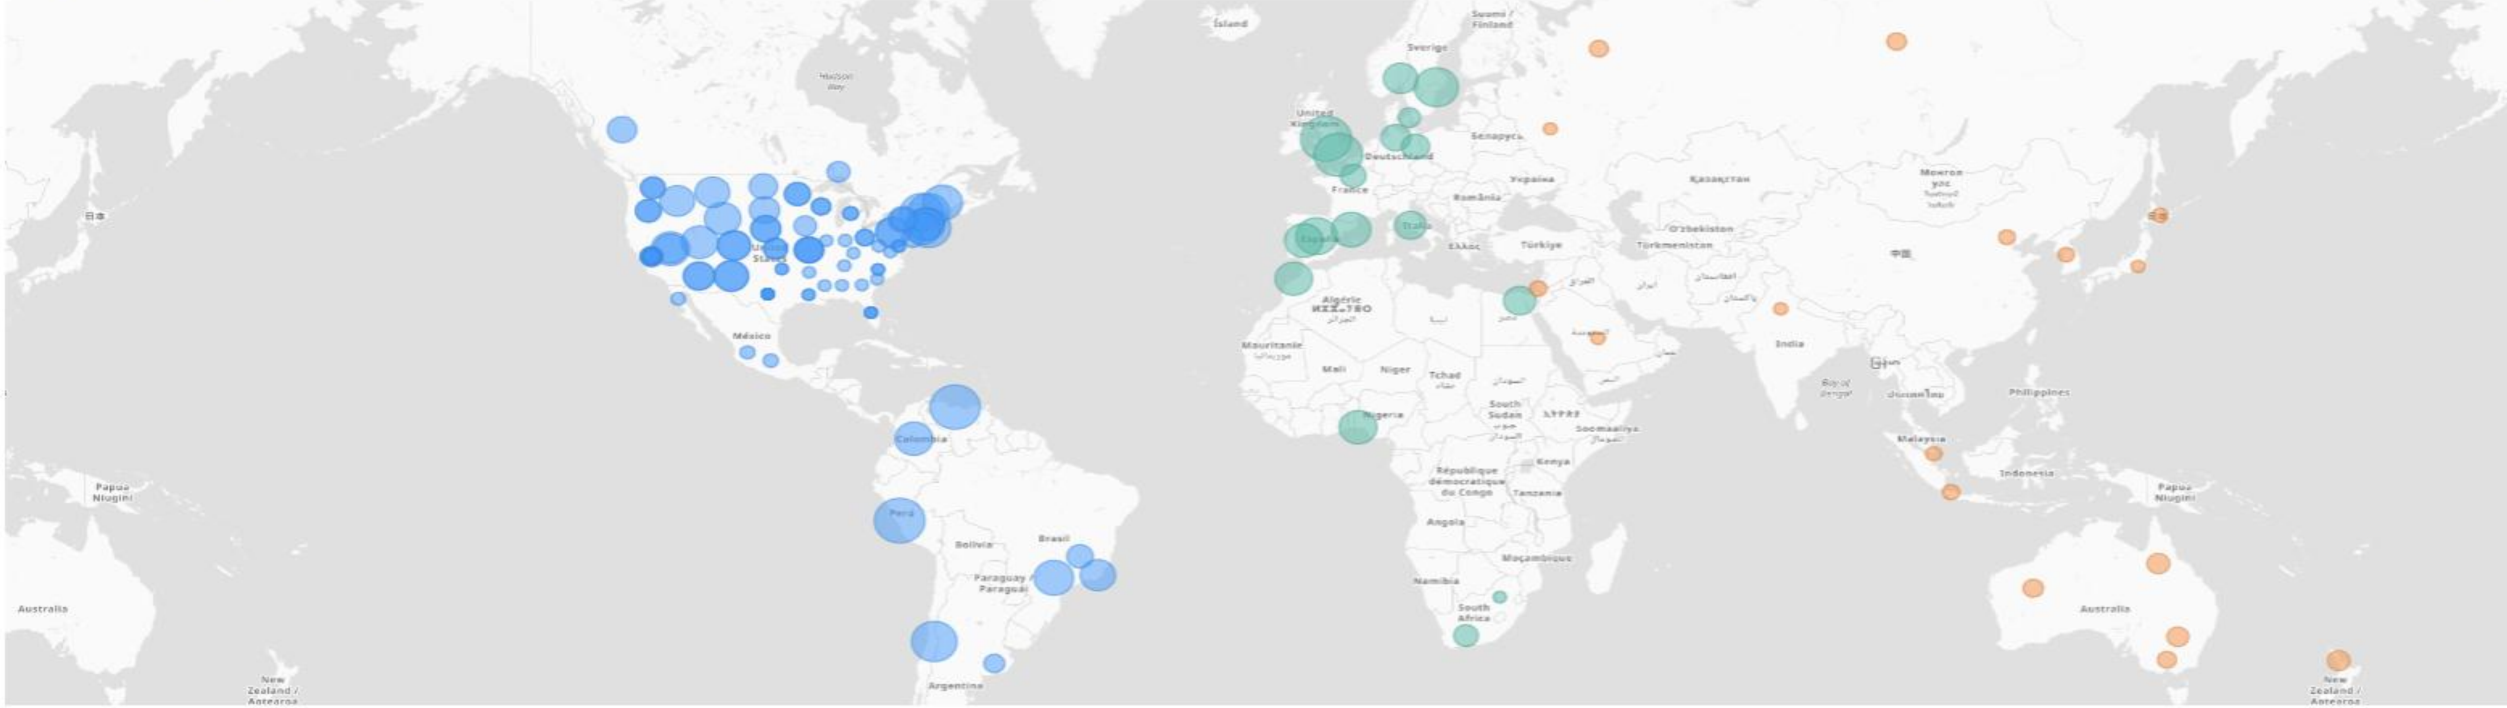
Company Overview (Geographic)

Americas	APAC	EMEA

Global Profit Distribution



- Global toy company with operations across six continents.
- Presence in developed and emerging markets creates growth opportunities.
- Facility locations help serve customers around the world.

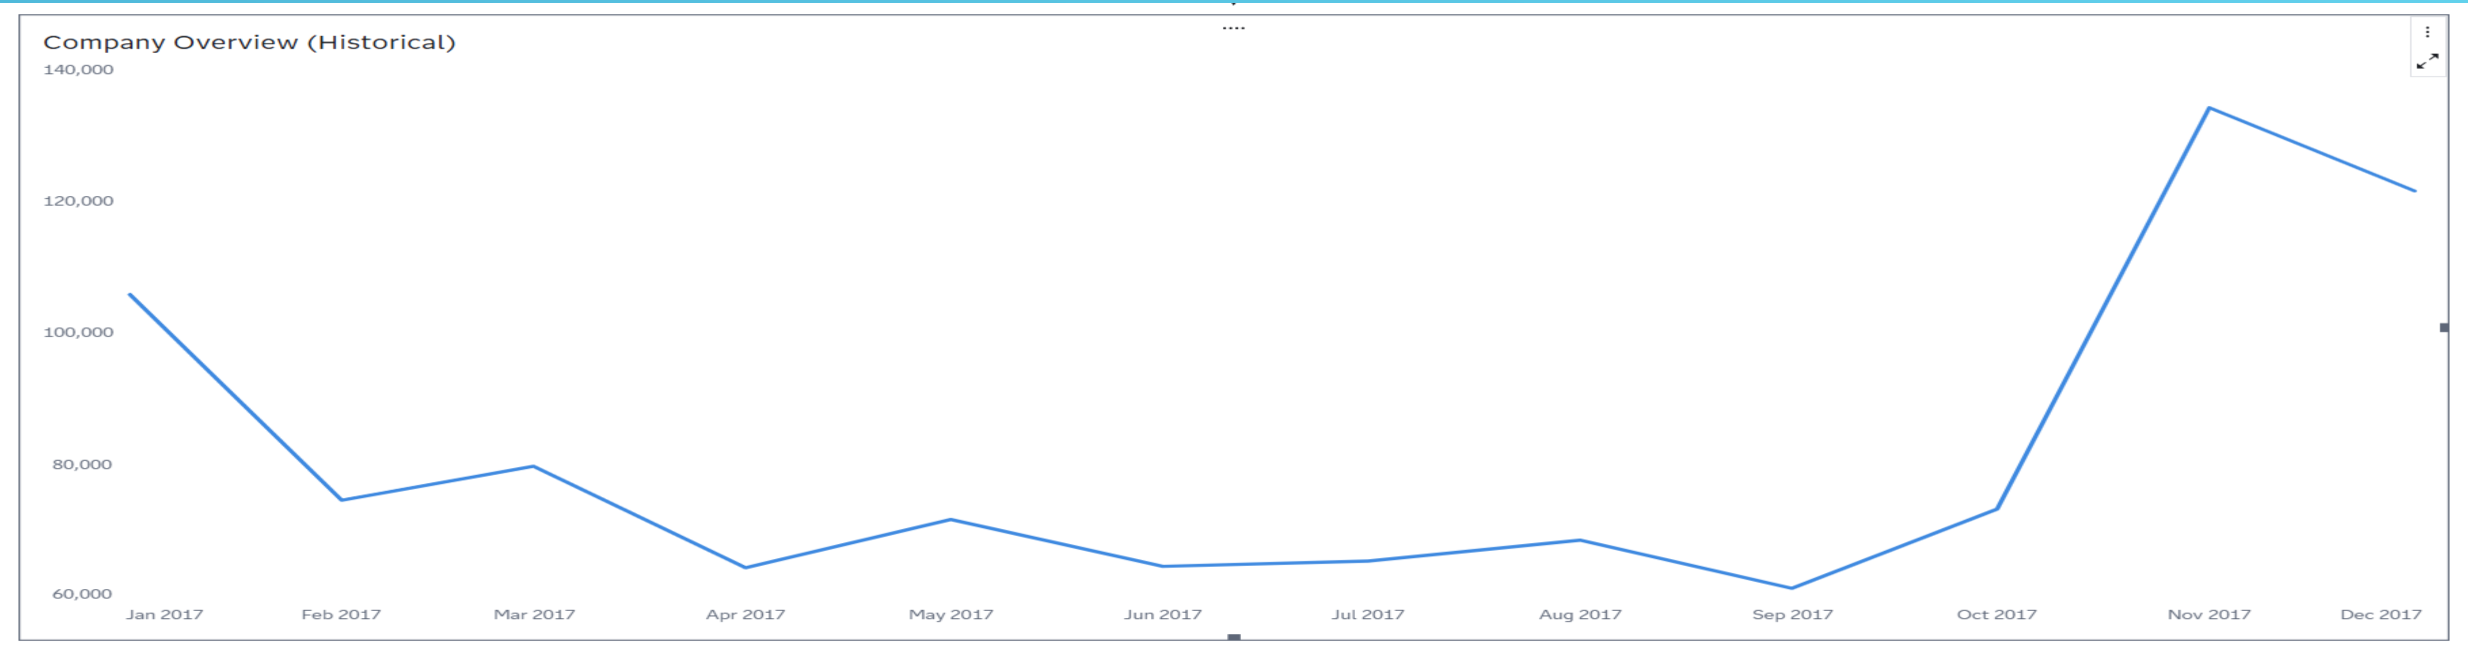
Global Operations by Continent

Global Operations by Continent

Facility Continent	Facility Employees ▼	Number of Sales Reps	Number of Facilities
	Count: 252,076	Total: 249	Total: 127
North America	167,532	168	85
Europe	47,929	22	12
South America	18,780	14	8
Africa	7,151	11	5
Oceania	6,151	10	5
Asia	4,533	24	12

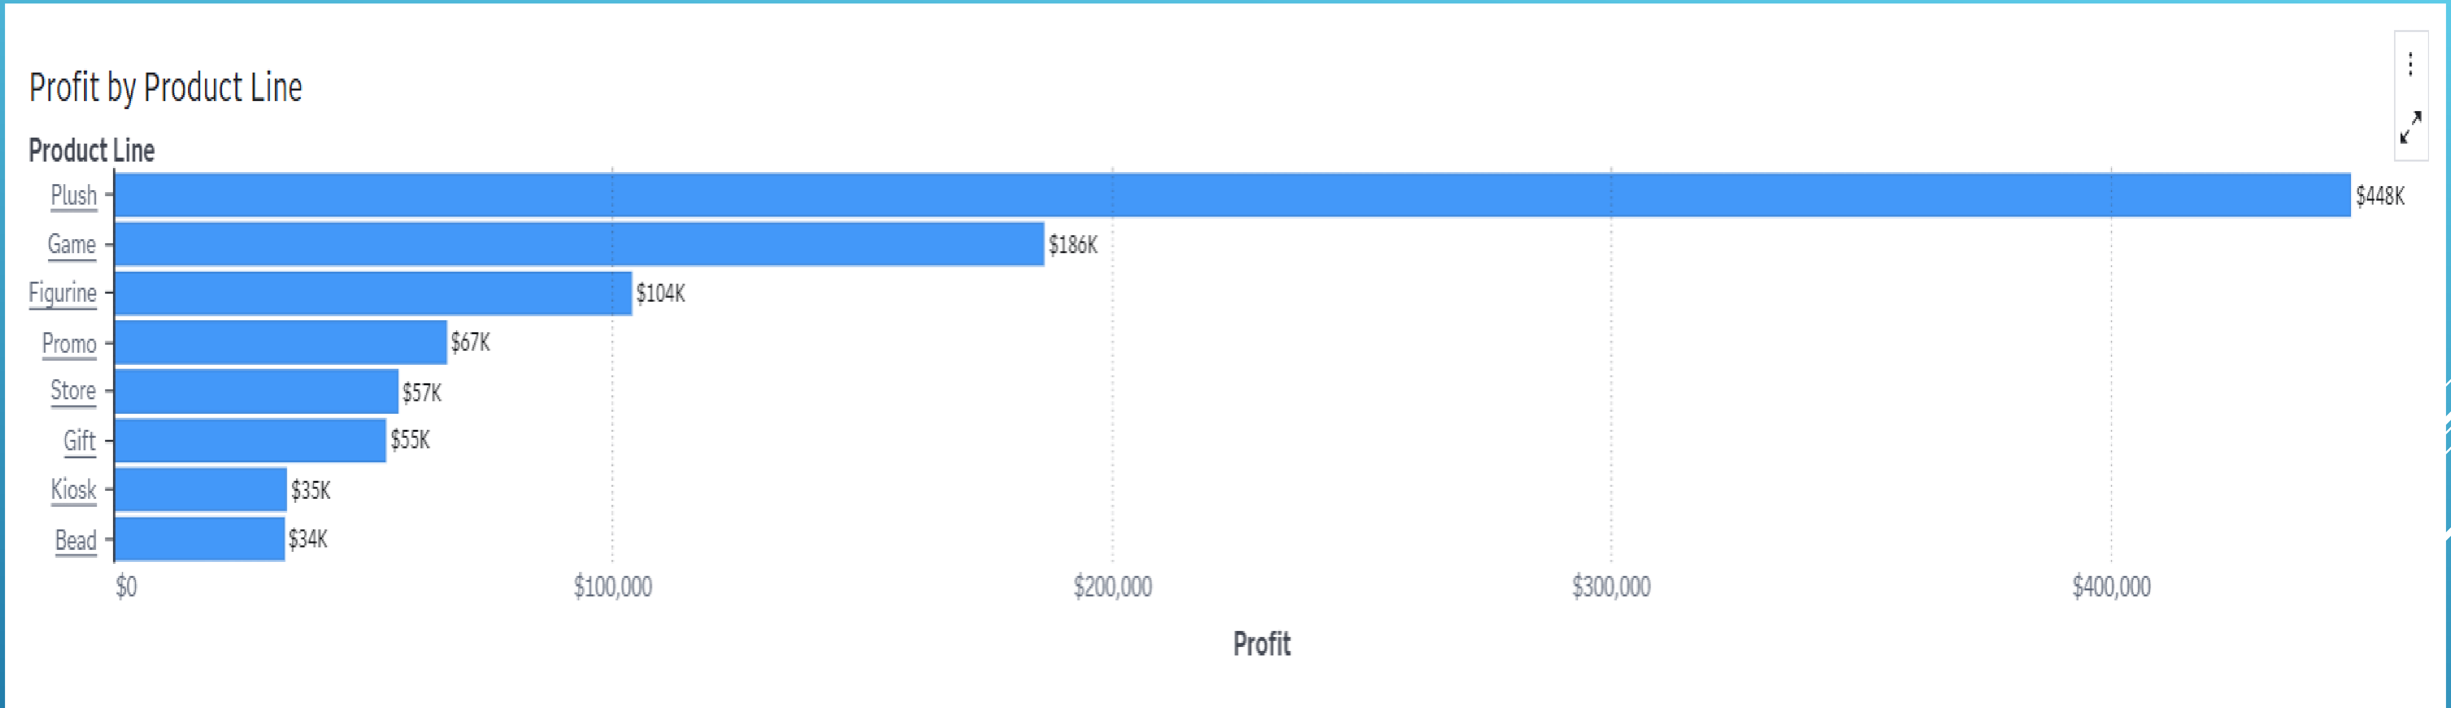
- Opened between 1985-2015
- 252,076 employees
- 249 sales reps worldwide
- 127 facilities globally

Company Overview (Historical)



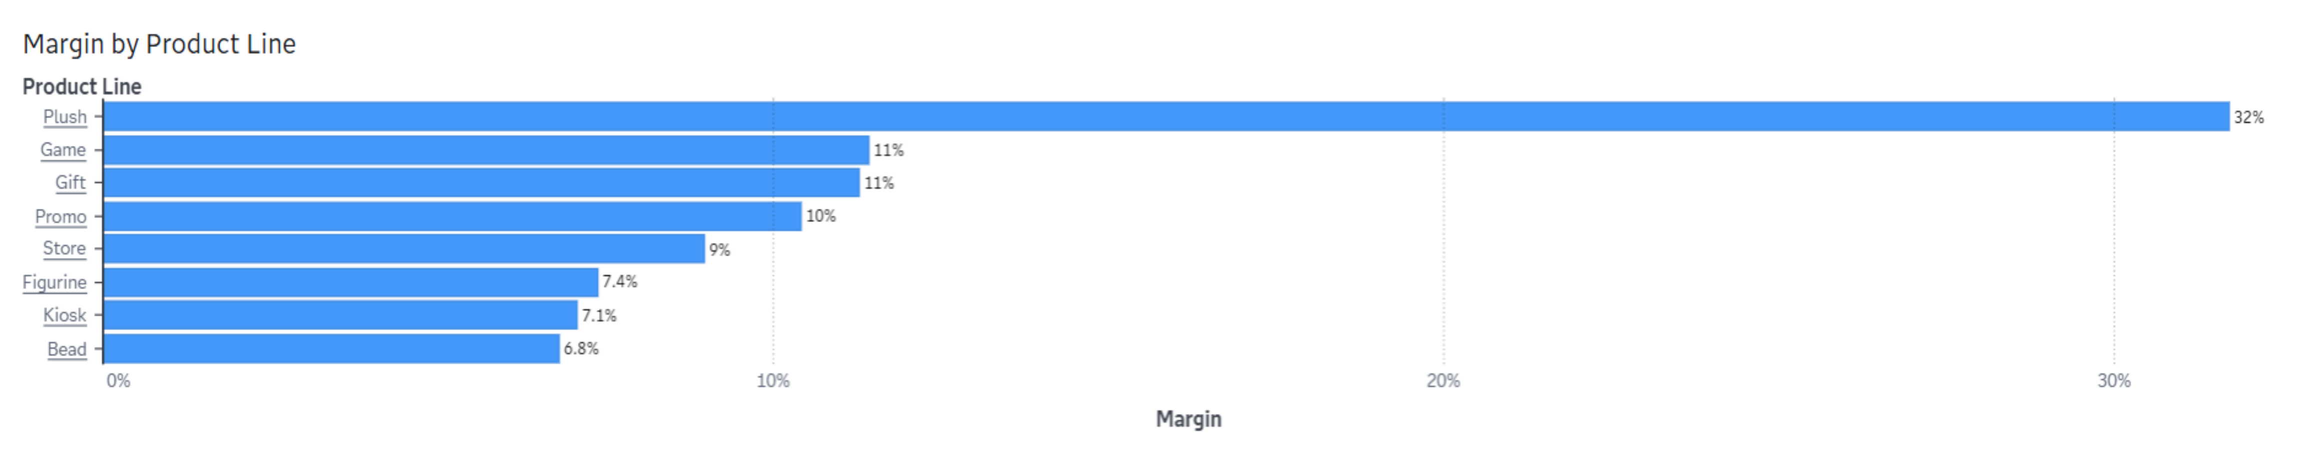
- Profit starts at $105K in January and declines to a low of $62K in September.
- A strong Q4 recovery peaks at $135K in November, indicating higher year-end demand.
- The mid-year decline from April to September suggests a consistent seasonal pattern.

Total Profit by Product Line



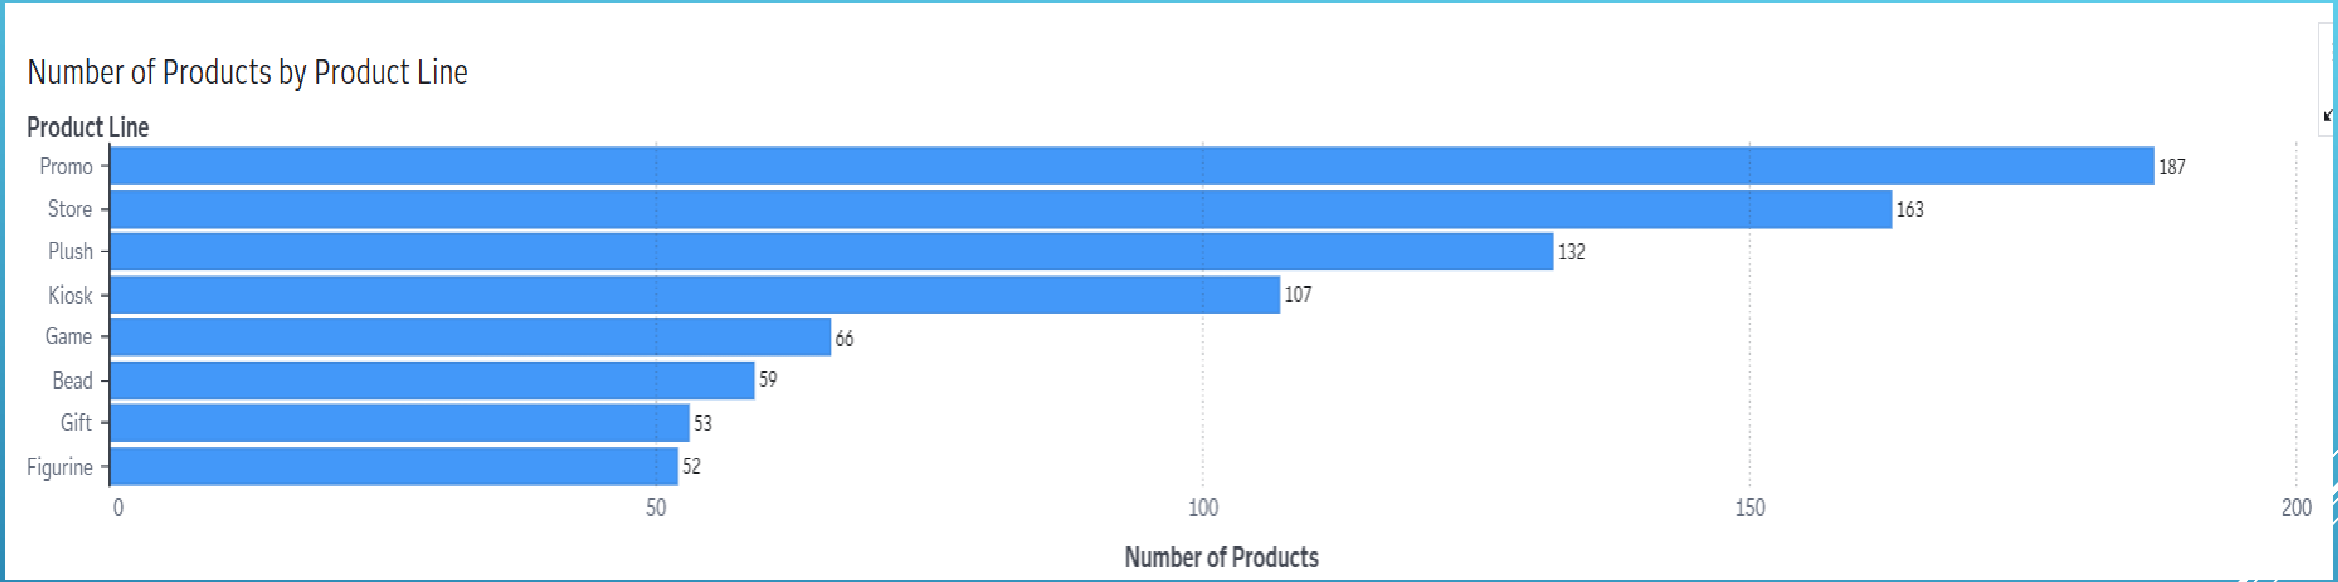
- Plush generates $448K in profit, nearly 3x more than Game at $186K
- Plush, Game, and Figurine together drive over 73% of total profit
- Kiosk and Bead each generate about $35K despite Kiosk's high volume

Profit Margin by Product Line



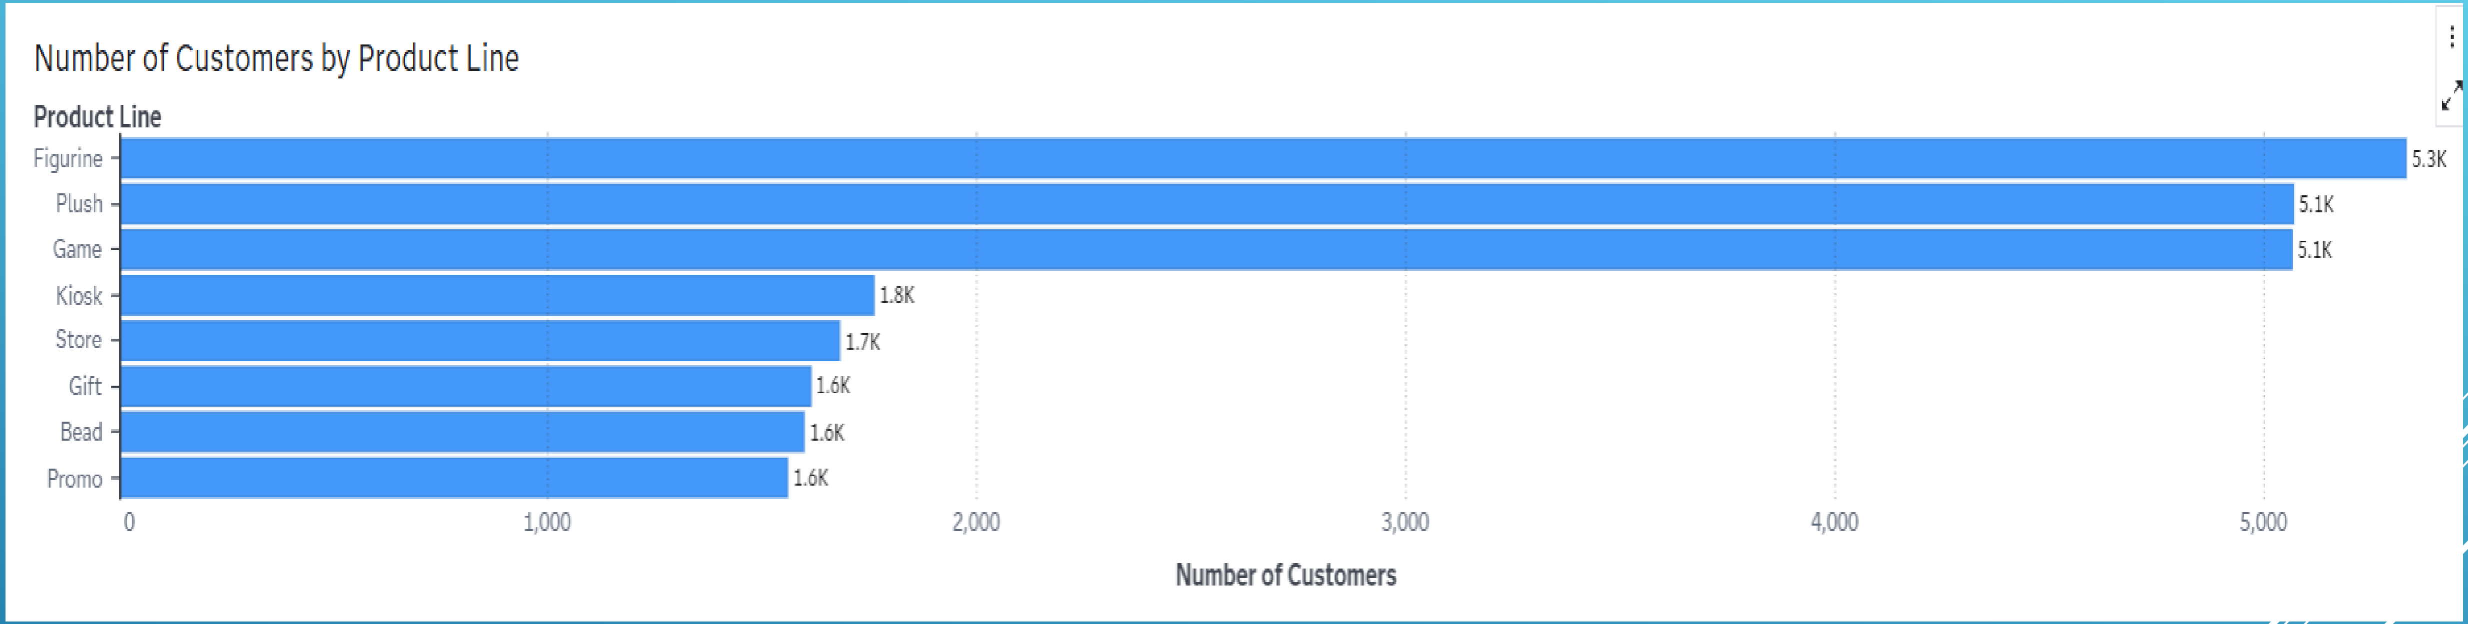
- Plush has an exceptional margin of 32%
- Most product lines cluster between 7-11% margin
- Kiosk and Bead have the lowest margins

Number of Products (by Product Line)



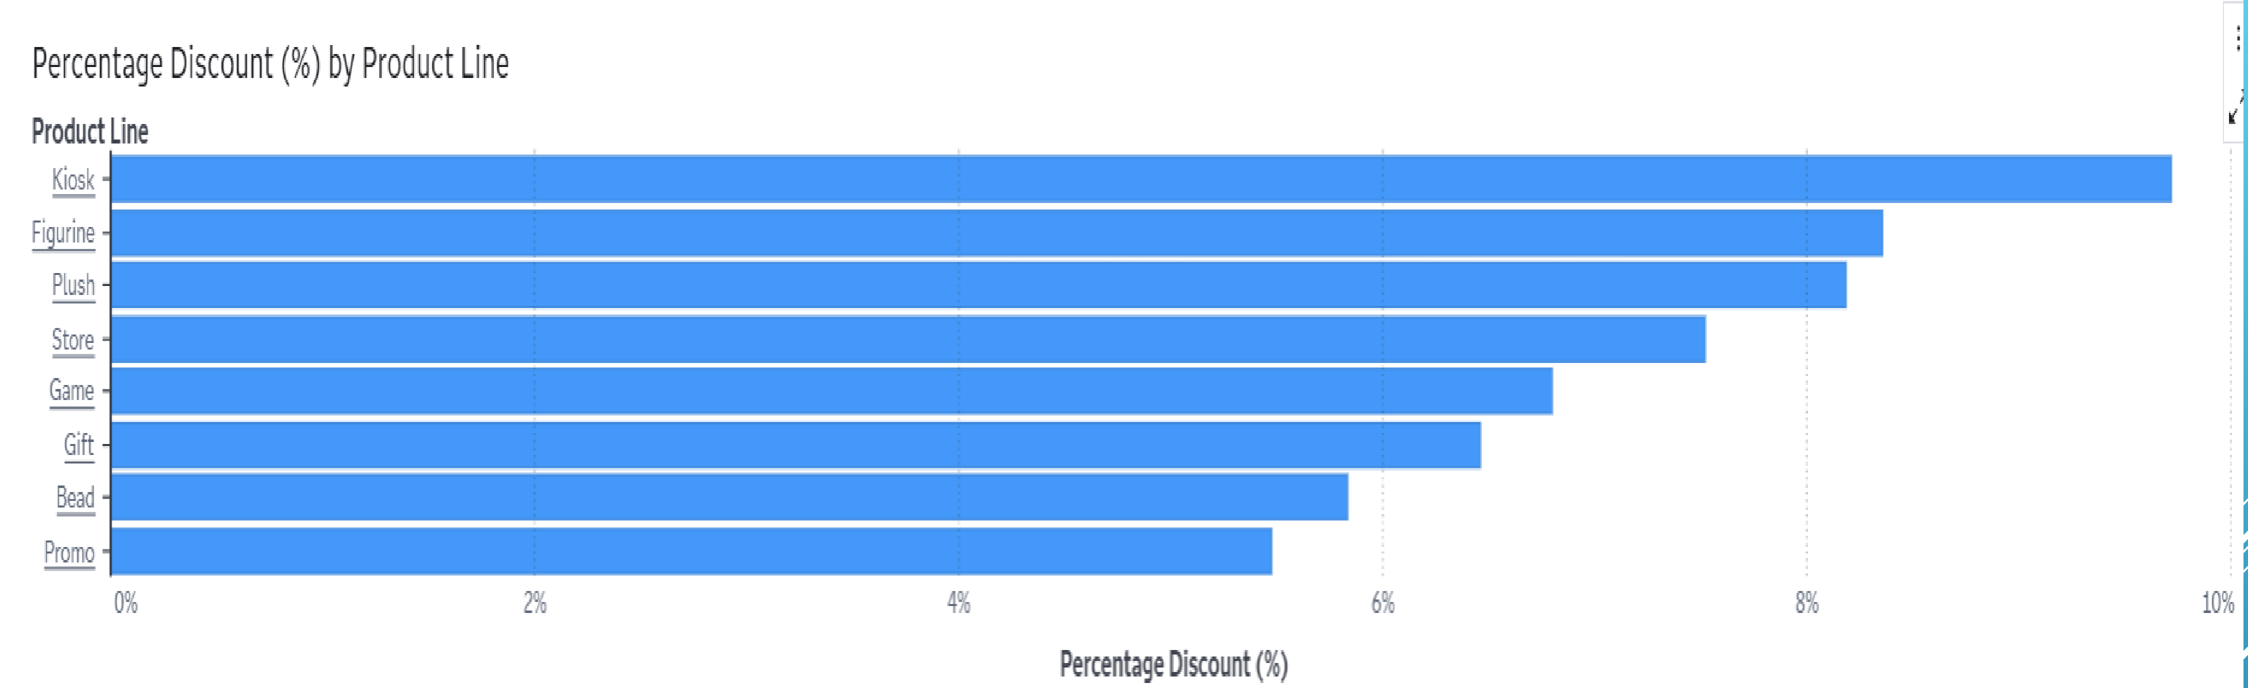
- Promo and Store carry the largest product ranges (187 and 163 products)
- Figurine and Gift have the smallest product ranges (52 and 53 products)

Number of Customers by Product Line



- Figurine, Plush and Game have the largest customer bases
- There is a significant drop after the top 3
- Promo has the fewest customers despite carrying the most products

Discount Percentage by Product Line

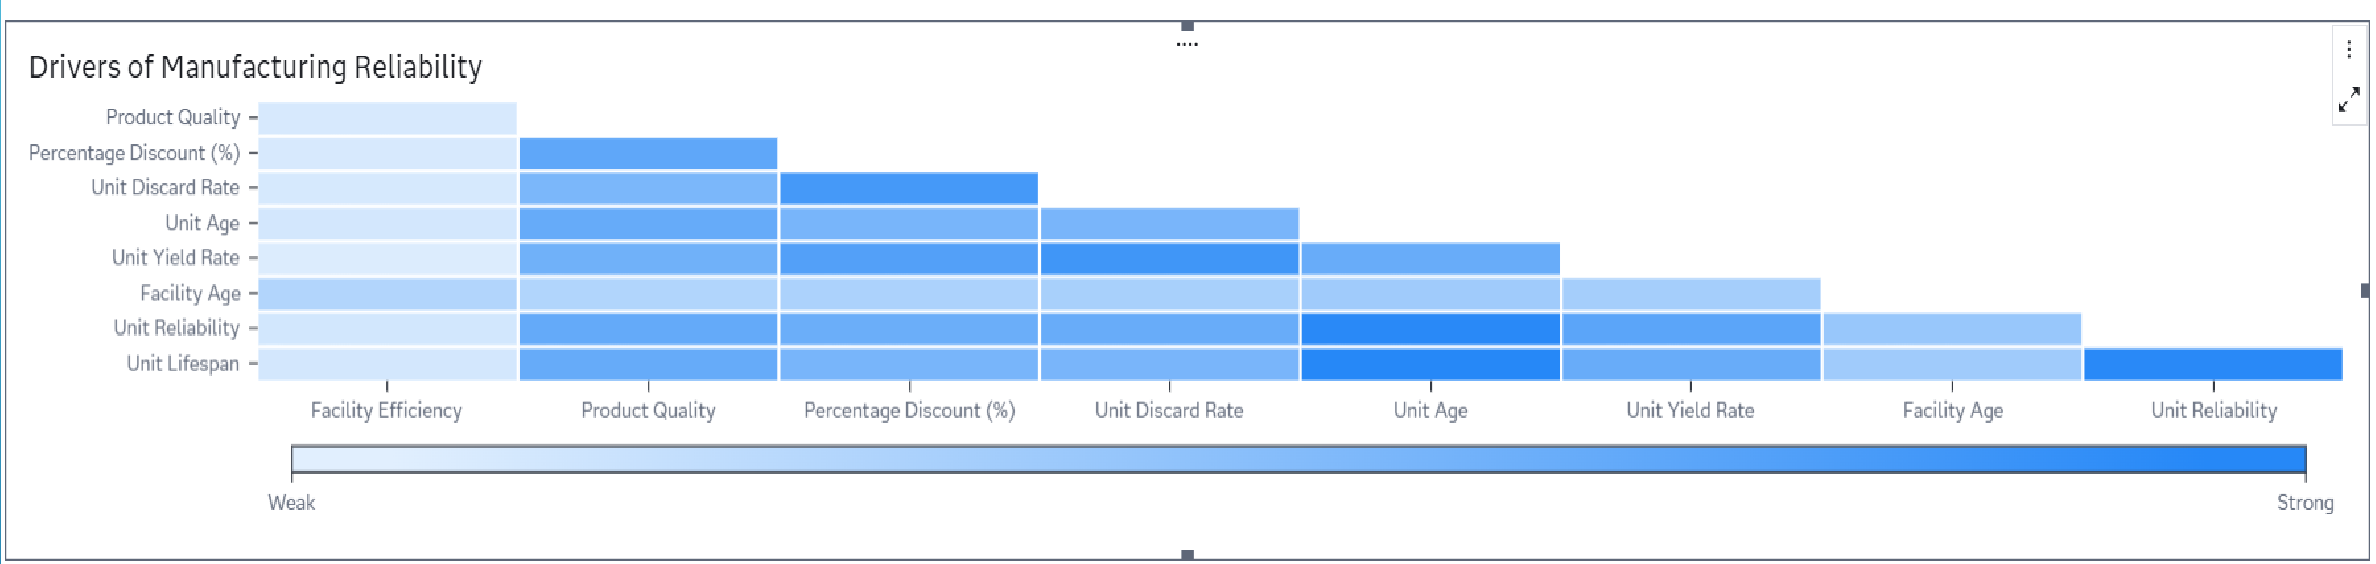


- Kiosk has the highest discount (10%) but low profit ($35K)
- Promo has the lowest discount (5.5%) and the fewest customers
- Discounts are consistent across all product lines (5.5%–10%)

Drivers of Customer Satisfaction

- Sales Rep Rating is the strongest driver of customer satisfaction across products and regions.
- Sales Rep Customers shows a moderate link, suggesting larger customer loads may lower satisfaction.
- Product quality, facility efficiency, and discounts show weak links to customer satisfaction.

Drivers of Manufacturing Reliability



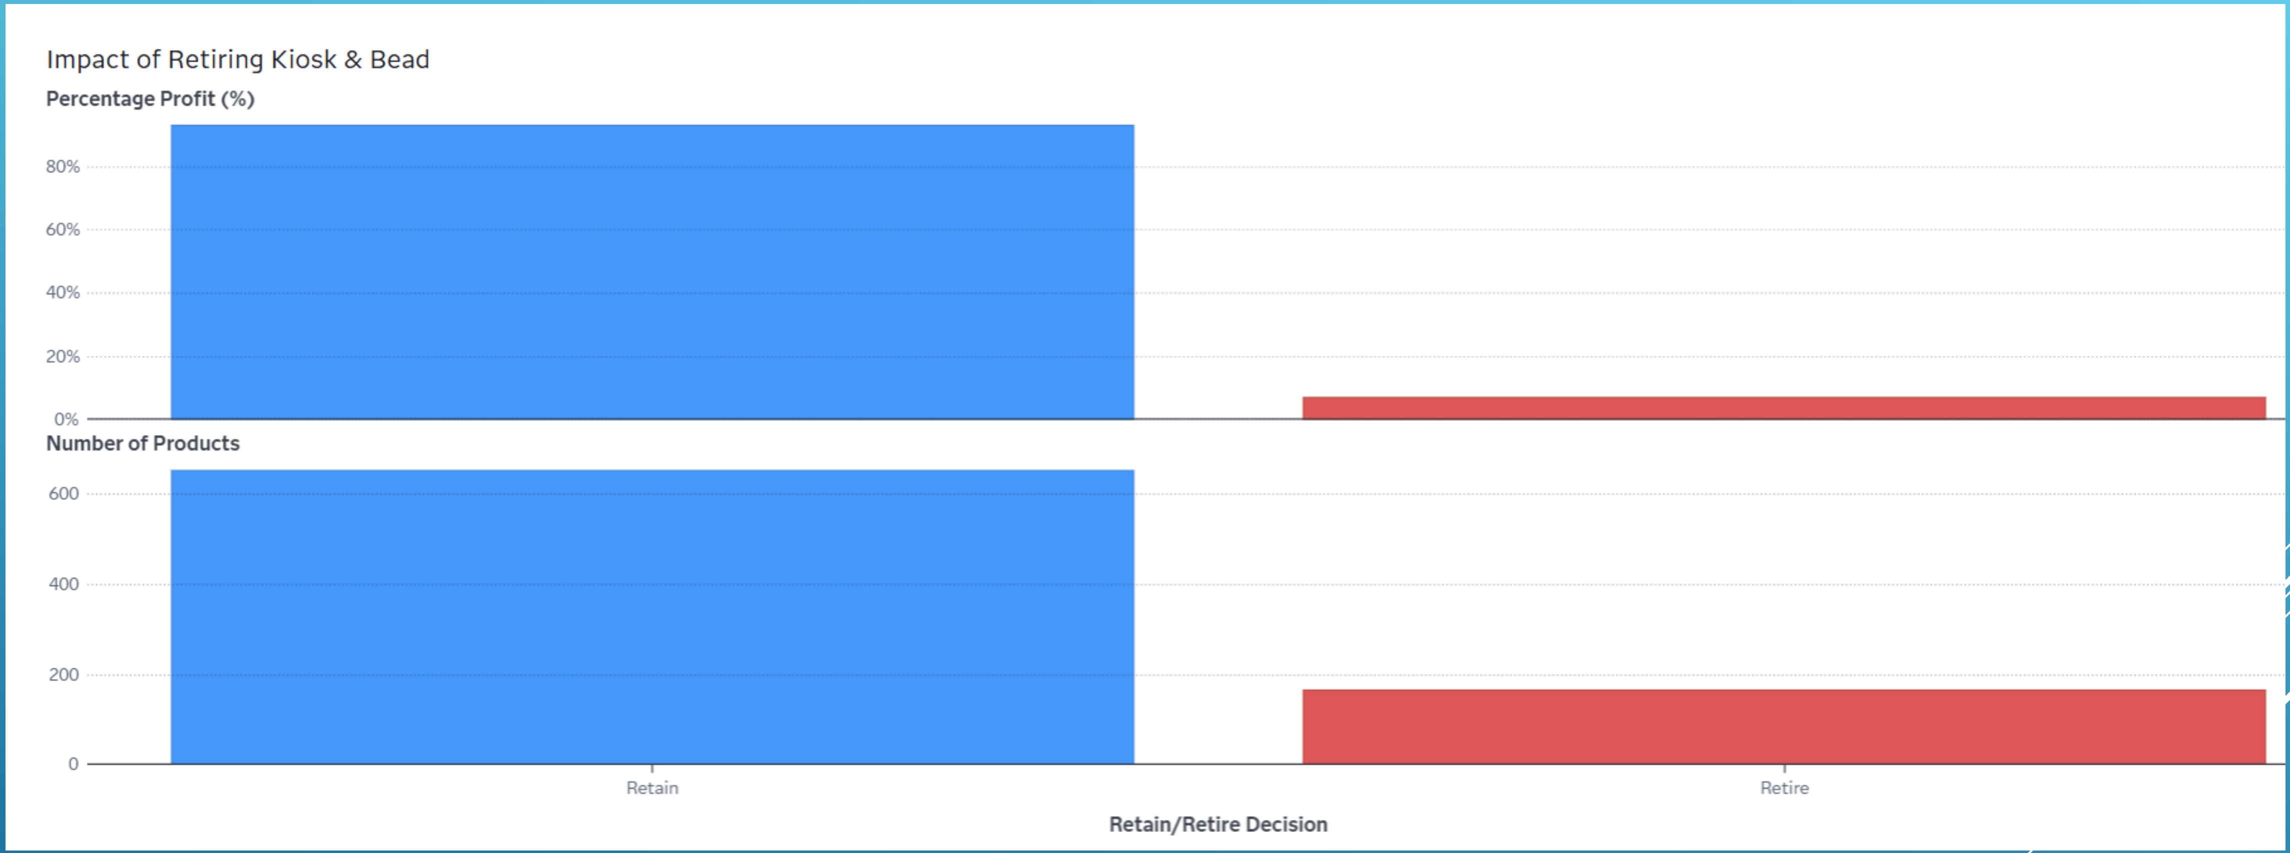
- Unit Lifespan has the strongest link to reliability; units near end of life should be replaced first.
- Unit Age and Yield Rate also strongly affect reliability; older, lower performing units drive inefficiency.
- Discounts correlate with discard rate and age, suggesting reactive pricing tied to poor performance.

Product Lines to Retain

Retain/Retire Decision ▲	Retain						Retire	
Product Line ▲	Figurine	Game	Gift	Plush	Promo	Store	Bead	Kiosk
	Profit	Profit	Profit	Profit	Profit	Profit	Profit	Profit
	103,775	186,292	54,535	448,010	66,759	57,015	34,250	34,615

- Plush, Game, and Figurine exceed $100K and should be retained
- Promo, Store, and Gift should be monitored
- Kiosk and Bead fall below $50K and should be retired

Impact of Simplification



- Retiring Kiosk and Bead retains 93% of total profit
- Portfolio reduced by 20% with 166 products eliminated

Key insights

- Plush drives $448K profit (32%), nearly 3x Game, from only 13% of products, making it the top investment opportunity
- Sales Rep Rating is the strongest driver of customer satisfaction, which remains below 52% despite high quality and reliability
- Figurine has 5,300 customers but only $104K profit, indicating pricing upside
- Kiosk sells 80K+ items but only $35K profit with the highest discount (10%)
- Retiring Kiosk and Bead cuts 166 products (20%) while keeping 93% of profit
- The Americas dominate with 85 facilities, while EMEA and APAC offer growth potential

Thank you!
